

Dowds Hill Tunnel

Adhering to strict safety measures

Client	Australian Rail and Track Corporation
Location	Peterborough
Contract Value	\$3 million
Completion Date	August 2011

Project Description

- Incorporated the removal and replacement of the existing rail tunnel with a 95m long 7.6m high x 9.5m wide multi plate steel arch.
- Reinstatement of the existing highway over the arch.
- Construction of road deviation with temporary level crossing.
- Management of varying design throughout construction.
- Adhering to strict safety measures due to works being predominantly undertaken within the rail corridor.
