

Grange Golf Club Wetlands & ASR Scheme

Significant environmental management

Client	Adelaide and Mt Lofty Ranges Natural Resource Management Board
Location	Grange
Contract Value	\$2.3 million
Completion Date	December 2007

Project Description

- Comprised of the construction of the wetlands and aquifer storage and recovery scheme at the Grange Golf Club site achieving the reduction of stormwater flows, providing a primary treatment for the stormwater and recharging the aquifer.
- Managed installation of wetland plating for functional and aesthetic purposes.
- Installation of pumping stations, diversion lines, inlet basin with access ramp and three wetland cells with associated transfer system.
- Due to nature of works, required significant environmental management.
- Extensive stakeholder interaction due to location of works.
